By hovering over an issue with your mouse, it shows the dates of it. By clicking on an issue you will be directed to its details view.

The screenshot displays the 'Issues' section of the IES NG platform. The left sidebar shows the 'Issues' menu item. The main content area features a filter bar with 'Alle Vorgangstypen' (Edited), 'Save', 'Save as', 'View details', and 'Clear view' buttons. Below the filter bar is a search bar and several dropdown filters: 'Issue type' (5), 'Medicine', 'Organization', 'Status' (11), 'Last update', 'Created', 'Published', and 'Legally valid dispatch'. A tooltip提示: 'To adjust the zoom level, hold down the (Shift) key and scroll.' is visible above the calendar. The calendar view shows the month of November with dates from 07.11 to 27.11. A red vertical line is positioned at 07.11. An orange circle highlights the issue 'HMP-1472 (26/06/2025 - 28/11/2025)' on the 26th. Other issues listed include 'HMP-1932', 'HMP-1929', 'HMP-1925', 'HMP-1807', and 'HMP-1531'. The bottom of the page shows 'TA Soggetto segnalante' and '1 of 12 Pages'.

8 You can edit the issue as usual.

The screenshot displays a web application interface for managing a disruption report. The main window is titled "Disruption report (HMP-1472)" and includes a "Create new" button in the top right corner. The interface is divided into several sections:

- Monthly sales:** A table showing sales data for the months of May 2025 through June 2024. Each row lists the month and the quantity of active ingredient (1.5156 kg or 41.526 kg). An edit icon (pencil) is visible next to the June 2024 entry.
- Next delivery:** A section showing the next delivery date as 28/11/2025 and the quantity as 11.7 kg Active ingredient. An "Add" button (plus icon) is located below this section.
- Status:** A section with a "Status" dropdown menu currently set to "In Analysis" (highlighted in yellow). Below it are two "published" buttons.
- Visible for:** A section with a dropdown menu currently set to "FBIHM (Therapeutic products division)".
- Activities:** A section with a "Comments (0)" button and a text input field.
- Linked issues:** A section at the bottom of the main window.

At the bottom of the page, there is a footer with the text "TA Soggetto segnalante" and a pagination indicator "1 of 12 Pages".

9

Once you close the issue, you will be directed back to the Timeline overview. You can set an individual filter and save it as an individual filter. The filter you have set will persist even if you change the view.
